Deeplearning with Tensorflow

Docker Essentials: A Developer
Introduction

Machine Learning by Stanford
University on Coursera

Maheshwar Ligade

Associate at Western Union

Pune, Maharashtra, India

Summary

5+ experience in Java, Spring, Docker, Hibernate & Android platform. I chose to be a software developer specializing in Open source because I love its simple Open source nature. While my passion for building simple, user-friendly applications gets me my daily bread, I toy with Java, Android & Python. Machine learning applications are currently getting attention from me and I have worked in the arenas of Android material design.

Hands-on experience in Spring, Hibernate, Proguard, google analytics, Realm.

Also good knowledge of Custom view & compound view.

Extensive OOP/OOD, AOP & functional programming language experience. Good knowledge of design patterns & architecture patterns (MVC, MVP & MVVM).

Concentrate on optimisation & performance.

Exploring Machine learning and AI stuff.

Experience

Western Union

Associate

April 2018 - Present

Pune

Infosys

Technology Analyst

August 2016 - March 2018 (1 year 8 months)

Pune Area, India

- Involved in both Front-End development, Back-End Development and Application Deployment

-Required to consistently update the project base with the latest technology

-Involved in Spring, Hibernate, Angular JS.

-Involved in several report generation by using ireport tool.

- Involved in few databases like MySQL, Oracle, and little bit aware about mongodb.
- Involved in project architecture designing.
- Required to meet clients for POC, requirement gathering, supports, UAT and automation.
- applying design thinking methodology to try to meet exact client requirement.
- Proposed a solution to client to save time and cost to automate report generation.

FirstCry.com (BrainBees Solutions Pvt. Ltd.)
